

GENE-TAMPERERS FLUNK HONESTY CHALLENGE

All GE scientists know the 'Gene-Tampering' Bill will contaminate our flora and fauna forever. It's our **National** Honesty Test: Conscience v **Con-science**:

HEALTH DANGERS

- × GE damages gut health and immunity.
- × The glyphosate used on most GE crops risks birth defects.
- × GE food remains untested on humans. But it causes tumours in rats.
- × Why did Mexico ban GE corn? Because tests revealed cancer concerns.
- × Why is NZ tampering with food labelling? To hide all the gene-tampering.

ENVIRONMENTAL SABOTAGE

- × GE would pollute NZ forever. We'd be 100% Impure New Zealand.
- × All GE scientists know GMOs contaminate. (Only honest ones admit it.)
- × Gene-editing to cut carbon emissions will poison the land, not heal it.

ECONOMIC DAMAGE

- × Our customers would reject NZ GE food, costing us over \$20 billion a year.
- × Only dishonest corporations and dishonest scientists would benefit.
- × Honest farmers, honest workers and honest customers would suffer.
- × More and more honest countries (30 so far) have already banned GE.

**CHALLENGE YOUR NATIONAL, NZ FIRST OR GREEN MP:
PROVE YOUR GE HONESTY: GET RID OF THE 'GENE-TAMPERING' BILL!**

So who's got it?

For evidence of the above claims and to take action against the Bill, go to:
